Hi Paulius -

Hope you had a great weekend. Thanks for sending along your solution. We've reviewed your code and think you've done a good job with your implementation. We would like to have you come in for an on-site interview for a more in depth technical session. Are you free to come to our office on Tuesday at 1pm? I would set aside about 3 hours of time and you'll meet with our engineering team - Andrew Potapov, Abdul Haseeb, and Amine Sahibi.

I'll send an invitation as a placeholder and we can adjust if necessary.

Best,  
Zyshan

Zyshan Kaba
